VCU CAPSTONE CODEVA TEAM
PROGRESS UPDATE 03/24

24 MARCH 2020

TEAM

Benjamin Napier, Dakota Brown, Seth Vickers, Kenneth Richardson, Hunter Frostick

AGENDA

Last Meeting Follow-up

1. The coding lessons have been completed with challenges and updates as requested by facilitators. This should be the wrapping up of the work on these lessons unless further requests are made by CodeVA.

2. Several lessons from the online classes for VCU can be used for the AP CSP class. We are in the process of selecting and adding these lessons to a folder for easy access for the AP CSP course.

3. Dissemination updates - included at the bottom with pictures.

4. Two sets of lesson plan concepts have been implemented in p5js. One of these covers each of the concepts laid out in a day-by-day introduction template. The other is a 5-part walkthrough example on creating a simple Cityscape.

NOTES

❖ Trouble with Zoho sending information between web pages causing a hold on the dissemination space.
ACTION ITEMS

1. **Work on AP CSP.** We need to get written/email approval to use material from the online VCU courses in order to make CodeVA comfortable using those materials.
2. **Having passed all relevant material to our sponsor, we were informed that we would be receiving feedback on the Cityscape work done so far. We have yet to receive this feedback, likely due to the current pandemic.**

VCU | Virginia Commonwealth University

3. **Dissemination Space.**
    a. Collects emails when creating account after filling out form to download lesson
    b. Ability to upload lessons (scratch or python or something new)
        i. And goes respectively to each of those sections
    c. Has student and faculty tabs but not specific views yet.
